OBJECTIVE

Computer Science Engineering student skilled in Python, React.js, MongoDB, HTML, CSS, and JavaScript with hands-on experience building full-stack web applications. Passionate about software development, problem-solving, and creating scalable user-friendly applications.

EDUCATION

Siddharth Institute of Engineering and Technology

B. Tech in Computer Science Engineering

CGPA : 8.34/10

Expected May 2027

Sri Krishna Reddy Siddhartha Junior College

MPC(intermediate)

CGPA : 8.97/10

Jun 2021 - Mar 2023

SKILLS

Programming Languages

Python , Java

Web Development

HTML , CSS , JavaScript

Databases

MongoDB

Tools

Git , GitHub

Soft Skills

Communication , Problem Solving

PROJECTS

Modern Fashion E-Commerce Website

Developed a modern and responsive fashion e-commerce website using HTML, CSS, JavaScript, React.js, and Firebase. The application allows users to browse products, search and filter items by category, and manage shopping cart operations efficiently. Firebase Authentication was implemented for secure user login and signup functionality, while Firestore was used for storing product and user data.

Real-Time Weather Forecast App

Built a responsive weather forecasting application using React.js and OpenWeatherMap API to provide real-time weather updates. The application automatically detects the user's location using the Geolocation API and displays temperature, humidity, wind speed, and weather conditions dynamically.

CERTIFICATIONS

- Basic Python Programming | HackerRank | 2024
- React.js for Beginners | Coursera | 2025
- Frontend Web Development Certification | Great Learning | 2026
